Subject: July 29 Farallones DEIS Alternatives Meeting Notes and docs

---

Hello:

Thank you all for your interest and input at the July 29<sup>th</sup> DEIS Alternatives Selection Meeting for the Farallon Restoration Project.

If you were not able to attend/call in, we hope that the following items will assist in updating you as the status of the project.

Attached are the following files:

*July 29 Morning Meeting Notes for Farallon DEIS Alternatives Meeting*

*Power-point Presentation for Farallon DEIS Alternatives Meeting*

Also attached are the five articles/documents that were requested at that meeting.

*Pitt et al 2010*

*Primus et al 2005*

*Howald et al 2010*

*Rattner et al 2011*

*NPS Santa Cruz Island FEIS 2002*

The last of the DEIS scoping comments are still being collated, and those will likely be available to cooperating agencies in the next couple of weeks. *(As potential cooperating agencies in the NEPA process, it is requested that you not re-distribute any internal project documents without the prior consent of the lead agency and its core partners, so that the NEPA process can be adhered to.)*

Please don't hesitate to call or email me if you have any questions or additional comments. Thanks again for your input!

Respectfully,

**Dan Grout**
